Cybersecurity

ACCREDITED CAREER TRAINING

No out-of-pocket costs
Graduate in only 20 weeks
No degree or experience required

REIMAGINE YOUR FUTURE!

OVERVIEW

Cybersecurity professionals build, test, and analyze systems to protect data and information from hackers or other external threats. If you are a problem solver and have previous experience working with technology and people, a career in cybersecurity may be a good fit. Our hands-on training will provide personalized learning, career advice, and strong employment connections you need to step into a successful career.

YOU WILL LEARN

- Network Security Essentials
- Firewall Configuration
- Cyber Threat Simulation Training

- Microsoft Office
- Customer Service Communications
- Career Readiness & Job Placement Services
